28th March 2017

Dear Parents,

Google Classroom and Home Learning

I would like to inform Secondary parents that there will be an information session about a new feature of Google Classroom that will enable you to keep closer track of what your son or daughter is learning in their lessons so that learning at home can be supported more effectively. It will take place on Tuesday 3rd April, 8.15-8.45am in the Secondary Library.

The feature will enable you to receive daily or weekly summaries about missing work, upcoming work and class activities. There will be more information about this provided in the session. There will also be an opportunity for a further discussion about Home Learning.

Please email Ms. Sona Chhetri if you would be interested in attending.

Yours sincerely

Mr. Veer Shah
Assessment Co-ordinator
