### Principal's Message
Thank you for your cooperation with the new guidelines for parking. It appears that some drivers are unaware of the new guidelines, so please go through the details with them. We will be running a further orientation session with them and requesting feedback within the next week. If you have any feedback, please do contact me directly.

Congratulations to our U15 FOBISIA team currently in Thailand (the largest we have taken) who have been representing the school admirably; further details on their successes will be provided next week. Today our MUN (Model United Nations) group departed for their conference, also in Thailand - the very best of luck to them all.

There is lots to look forward to at school over the coming weeks, whether it is zumba, running, football, community work or preparing for Christmas shows or the Wintercultural Fair; please do get involved or encourage your children to do - the details are below.

Tomorrow morning, our new British Ambassador, who is also our school’s honorary patron and a new parent, will be joining us at the coffee stand for an informal chat; please do come and introduce yourselves and join us in welcoming Nicola to our community.

It is always great to see parents on the school campus, but can I remind parents that at pick up times (2:30pm, 3:30pm and 4:30pm), the parent/didi/family representative ‘collecting’ the child is responsible for them if you/they stay on the school campus; this means direct supervision and ensuring they are with you at all times. The school campus closes for parents and students at 5pm between Monday-Thursday and at 4pm on Friday.

Finally, the term dates for next academic year (2020-21) have been approved so you can start organising holidays and visits which don’t interfere with school days! **Term dates**

Have a nice end to the week and weekend.

Brian Platts

Christmas Bags for community schools
The most wonderful time of the year, Christmas is almost round the corner and as a part of our community work, TBS would like to bring in the spirit of Christmas and reach out to four of our community partners (DSA, Merry Ward Lubhu, Merry Ward Jhamsikhel and Hope rising Children Homes) by providing each child from these schools and organizations with essential items. The goal is for our students to reach out to those who are in need and fill the bag themselves. Please refer to this letter for details and contact Ms. Pandey if you have any queries.

Year 8 Geography Trip to ICIMOD
As part of their unit on Climate Change the Y8s went to ICIMOD to study sustainable mountain management. The Hindu Kush Himalaya has a population of approximately 240 million people. However, it is the source of 7 rivers that affect 2 billion people. Nearly a third of the world’s population. With climate change these rivers pose a great risk to the people so it is incredibly important that people are more aware and prepared for the impacts.
