29th August 2016

Dear Parents and Students,

University Visits to TBS

This year we have more visits from universities in a wider range of countries than ever before. It is important for students to take advantage of a variety of opportunities to find out about the different routes available and general expectations for admissions. Even if individual institutions are not on a student’s immediate list of possible destinations, there is much to be learned about the country, subject area or type of institution represented. Parents are very welcome at any of these events.

</table>

More information is available on the next page about all these visits. If you would like to attend please contact Ms Khetan in the Sixth Form Office (nkhetan@tbs.edu.np) for more details.

Yours sincerely

Ms. Gemma Caines
Head of Sixth Form
Indiana University / Miami University
Indiana and Miami are leading public universities in the USA. Indiana has 8 campuses and almost 120,000 students. Home to world-class business and music schools, it also houses the world’s first school of philanthropy as well as the USA’s first school of informatics and its largest medical school. Other academic programs include education, engineering, law, international studies, journalism, nursing, public health, and public affairs. At Miami, 20,000 undergraduates study across 4 campuses, and students can spend a semester or year at their European campus in Luxembourg. Over 120 areas majors and study areas are available.

Yale University / NUS College
Yale University has joined efforts with the National University of Singapore (NUS) to create a cutting-edge, global liberal arts institution in Singapore. This unique partnership combines best practices in liberal arts from Yale University while granting students the opportunity to live and study in one of the fastest developing regions of the world. With needs-blind admissions, students are fully funded if there is financial need. Students benefit from the educational philosophy of Yale University, which sends professors from their campus in New Haven Connecticut, whilst studying in a truly global campus with 40% international students. For students seeking an international education set in a safe yet innovative environment, Yale-NUS may be an opportunity to explore.

University of British Columbia
UBC is a global centre for research and teaching, consistently ranked among the 40 best universities in the world. It’s two campuses in Vancouver and Okanagan in Canada are home to almost 60,000 students from 140 countries. Its entrepreneurial perspective encourages students, staff and faculty to challenge convention, lead discovery and explore new ways of learning. The UBC vision claims that bold thinking is given a place to develop into ideas that can change the world. TBS students regularly attend UBC and 2 students from the Class of 2016 were offered a place. For students considering a North American university education, UBC is well worth considering.

College Success EduFair
CSE are a group of global university representatives that provide practical workshops. TBS is pleased to host representatives from the University of Montana (USA) and IE Business School (Spain) this time. IE is one of top business schools in the world: ranked 3rd for Master in Finance, 1st for its online MBA, 10th for Master in Management and 12th for International MBA worldwide by the Financial Times. The University of Montana is a world-class university with a top 1% business school in the world (endorsed by Warren Buffet!) and the top journalism and creative writing programs in the U.S. Workshops will include "Entrepreneurship – how to have new business ideas," “Do’s and don’ts of writing a stellar personal statement," “The World through artist's eyes: creative majors,” “How to win the admissions game and get into top universities in the U.S.” and “Myths and realities of choosing your major and liberal arts.”

US Colleges Mini-Fair
USEF organise US college fairs in Kathmandu several times a year. Usually our students go to Lincoln School to attend, but in 2016 we are hosting the event ourselves here at TBS. There will be talks from the attending institutions followed by a tabletop fair where individuals have the opportunity to ask questions of college staff. The 16 attending institutions are: Aviation Institute of Maintenance, Bellevue College, Central Washington University, Colby College, College of the Desert, Colorado State University, Fairleigh Dickinson University, Marywood University, McNeese State University, Minerva Schools, Northern Kentucky University, San Mateo Colleges of Silicon Valley, Savannah College of Art and Design, University of Colorado Boulder, University of South Dakota, and University of Wisconsin Milwaukee. This is a great starting place for anyone wanting to find out more about the diverse opportunities available in the USA.

We hope to see lots of you here!
