1st March 2022

Dear Parents,

Careers and Further Education

We are looking to update the information we currently have regarding the skills and expertise within our parent community and the potential for sharing these skills and expertise with our students.

We believe it is beneficial for our students to hear from experienced professionals about the options available to them for the future and to have their support and guidance when applying to higher education institutions and pursuing careers in specific fields- and what better place to start than our own community!

We know many of our parents are highly qualified and have a wide range of expertise in a variety of fields. If you feel you have something to offer our students, we would love to have you involved. Please complete this [google form](#) to let us know what field you can offer support in and what type of support you are able and willing to give.

Thank you in advance for sharing this information and for your time.

Yours Sincerely

Pauline Gradden
Vice Principal

Florence Gurung
Further Education Coordinator
