Parent Information Session: Supporting Your Child's Reading Tuesday 8th November 8.15am-9am

Dear Parents,

We would like to invite you to a parent information session next Tuesday morning on reading for secondary age children.

At TBS we know that maintaining a good reading habit has enormous benefits for us all. Studies have shown that reading improves focus, memory, empathy, and communication skills. It can also reduce stress and improve mental health. Students who read regularly throughout their teenage years have even been shown to outperform their peers in maths.

In this session we will share the ways in which we support reading in school as well as sharing advice on how you can support your child at home. The session take place in the **hall**, running for approximately 45 minutes and will consist of a presentation from our Head of English Mr Jamieson as well as a chance to ask questions.

In addition, we welcome parents as members of our school library, so there will also be a chance to set up your own library account and to take out any books which interest you too between 8am and 8.15am.

If you are planning on attending, please complete this form [here](#).

We look forward to seeing you all there,

Yours sincerely,

Ms. Barnecutt

Head of Secondary
